SMART™

Standing Desk System

The SMART™ System delivers breakthrough performance and advanced intelligence, providing a smarter, more efficient, and safer standing desk solution for the modern workspace.

- **Enhanced Performance**
- **Modular Design**
- **SMART™ Connect**
- **Reinforced Structure**
- **Safety Assured**

SMART™ Column

CLASSIC™ Column

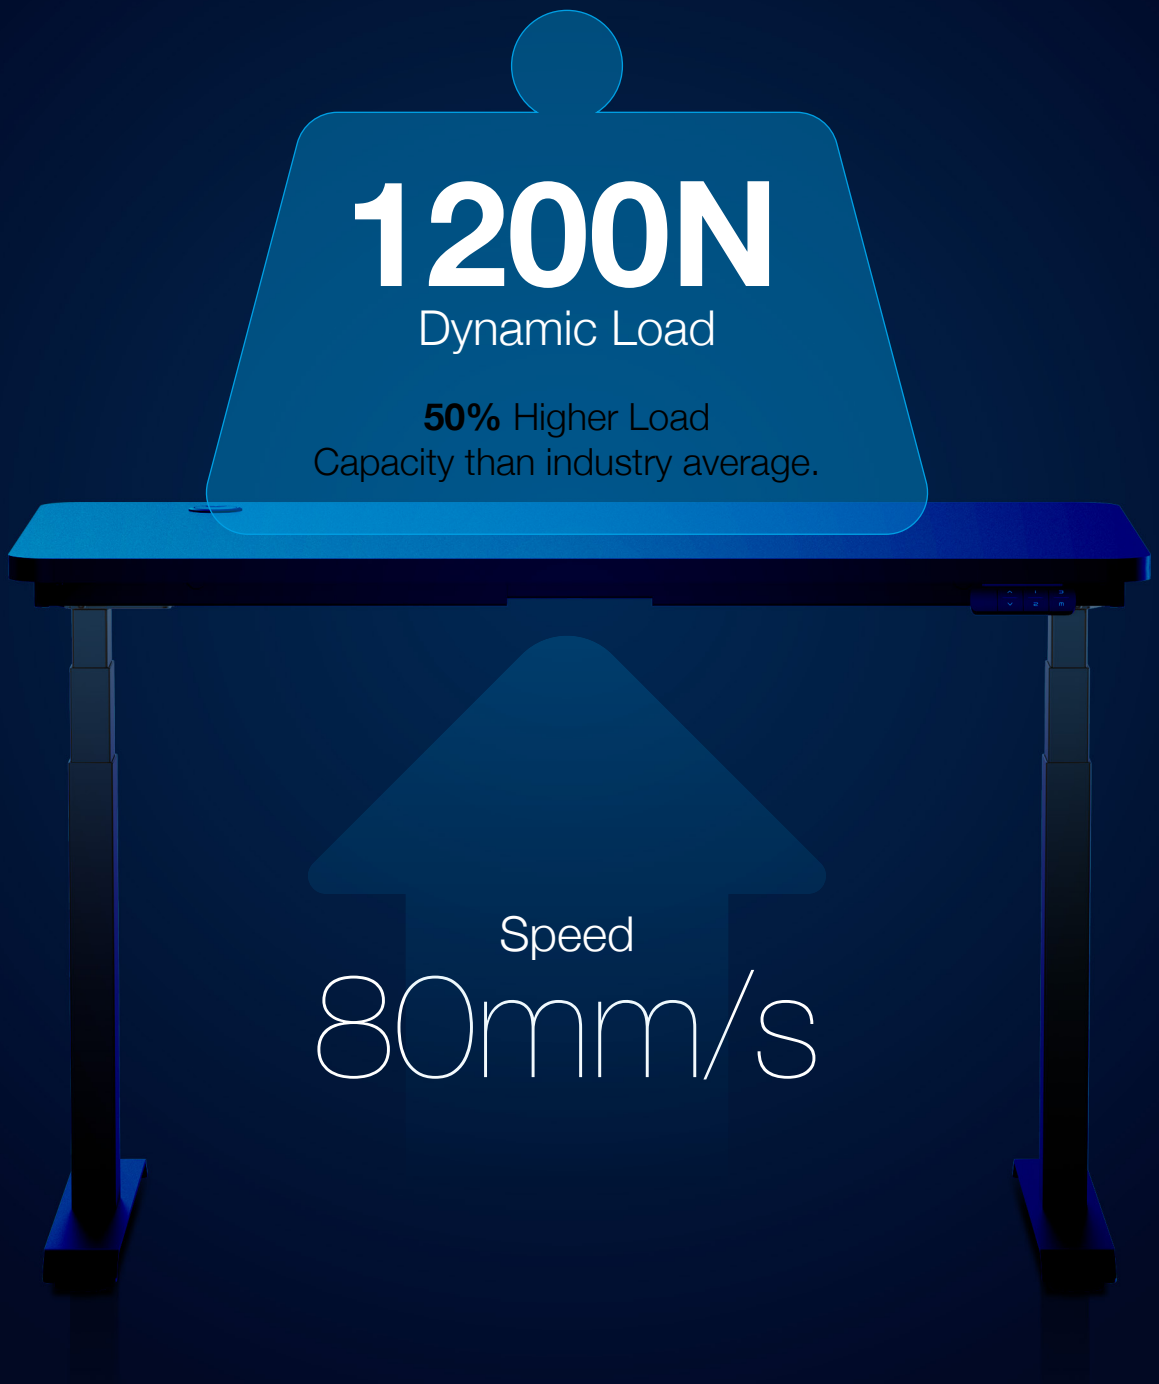

Performance Specs

SMART™ Column		CLASSIC™ Column
80mm/s	Speed	40mm/s
1200N	Dynamic Load	1250N
1200N	Static Loading	1200N
✓	SMART™ Connect	✗
✓	Modular Port	✗
✓	Safety-DUO™ Anti-collision	✓

Enhanced Performance

Heavier Loads, Faster Speed

Innovative Connection

Our unique modular motor cable interface eliminates traditional fixed cables.

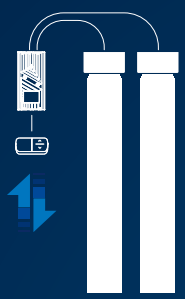

- **Faster Assemble**
- **Easier Maintenance**
- **Cleaner Aesthetic**

SMART™

SMART™ Connect

Truly Plug and Play

Use at any height without reset

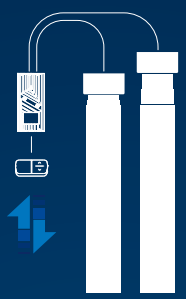

Connect columns of equal height

↓

Real-time position recognition

↓

Instant synchronized operation

Auto height balancing

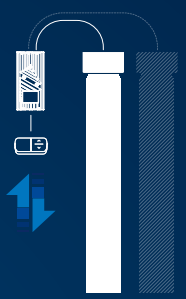

Connect columns of different heights

↓

Automatic height calibration

↓

Synchronized lifting

Adaptive Channels

Automatically recognizes the number of columns

↓

SMART™ connect and play

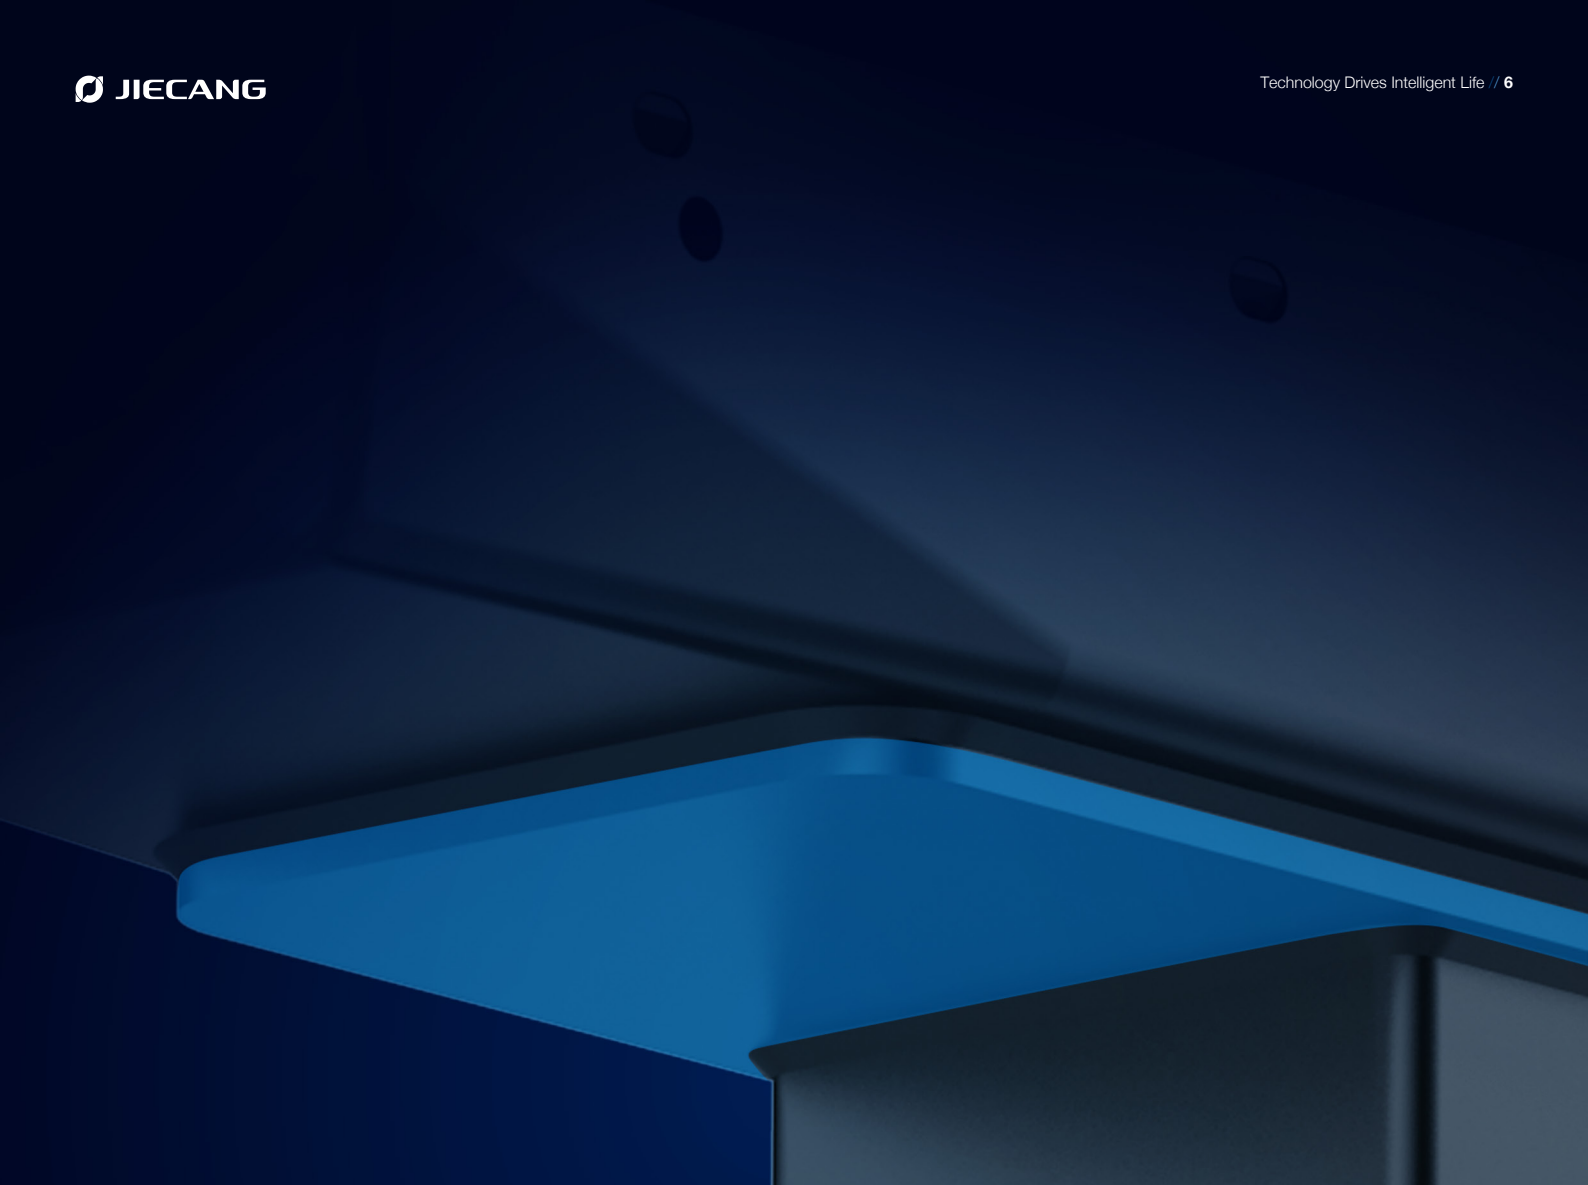

Cost saving

Fewer SKUs reduce production, storage, logistics and management costs.

Customer Value

Reduced complexity

No need for dedicated control box for different columns.
Simplified purchasing and inventory management.

Reinforced Structure

Specially designed SMART™ columns ensure superior stability, certified by GS pendulum test.

Safety Protection

Integrated Safety-DUO™ Anti-collision
More Reliable, More Secure

Response in <500ms

Full-area protection across the entire lifting range
